

COMPANY OVERVIEW

Belize's full-service Solar Provider for residential and commercial size photovoltaic systems. We serve individuals or communities living off-grid or clients being connected to the grid and looking to reduce their power bills. By covering all aspects of a solar project such as power consumption analysis, system planning & design, installation, maintenance, remote monitoring and service support, we are providing comprehensive solutions to our customers.

COMMUNITY INVOLVEMENT

- Guest Speaker at Seminars for Solar Awareness
- Solar Education Provider at Cayo Center for Employment Training
- Developing & Facilitating of Caretaker Course for Villagers living Off-grid
- Support of the Village Football Team
- Weekly Food Assistance during Lock-Down

FIGURES

- 14 Employees
- 10 years in Operation
- 100+ Reference Systems
- 4000+ Solar Panels Installed
- 1.6mW of Solar Installed in Belize

HISTORY

~Swiss Roots with 20 years off-grid experience in Belize~
Many years ago the founders of SESB left their homeland Switzerland to travel the Pan-American Highway. They started their journey in Alaska and travelled down to Mexico. When entering Belize for the very first time, they never would have envisioned, that this country would be the end of their journey and the beginning of a new life in Central America. After managing a Jungle Lodge in Belize and living completely off the grid for many years, they realized a huge demand for power solutions for communities and individuals living off-grid. They decided to make a virtue out of necessity – the idea of “Solar Energy Solutions Belize (SESB) was born.

LOCATION

- We are located on Young Gial Road, Teakettle Village, Cayo, Belize. Our operation runs completely off-grid

- Solar Energy Solutions Belize Ltd., P. O. Box 63, Belmopan, Cayo, Belize
